## SPORTSMANSHIP

The fundamentals of sportsmanship are a very important matter. It is not a subject to be overlooked in any type of sport. The sportsmanship of a player is a very good way of showing the people of your community and of other communities what kind of a person you really are. Everyone should know that it is not whether you win or lose, but how you play the game.

There are many important things to remember in participating in any kind of sport. One important thing to remember is, to be agreeable with the decision of the referee, or the umpire. His decision should be accepted by everyone.

One main thing to remember in any sport is to get along with the other players on the team. It takes the co-operation of each individual player to make a good team. Teamwork is the backbone of good sportsmanship. One should never "lose his head" in sports. When one's temper gets away from him, he is no good to the coach or to the rest of the team. A good player has good control over his temper. Also, do not criticise someone if they make a mistake. Remember, no one is perfect. This is a good rule to remember in sportsmanship, "No one is perfect!"

Editorial

## GIRLS BASKETBALL

Basketball practice started about three weeks ago. The

following girls are participating.

Brenda Brown*	Foreward	Senior
Janet Pearle Longcoy	Foreward	Senior
Judy Jobe	Foreward	Senior
Ruth Grout	Guard	Junior
Norma Sutherland*	Guard	Junior
Rita Miller	Foreward	Junior
Marylin Minnick*	Foreward	Sophomore
Janetta Saltzman*	Guard	Sophomore
Janet Richards*	Guard	Sophomore
Glee Bear*	Foreward	Freshman
Gay Lou Ferguson	Guard	Freshman
Marie Miller	Guard	Freshman

\* Starting players

The Tingley girls lost their first game of the season to Shannon by a score of 25 to 56. Ann Comer was high scorer

for Shannon with 24 points and Carol Werner was second with 20. Brenda Brown led the Tingley scorers with 17 points.

## BOYS BASKETBALL

The Tingley boys basketball team got off to a good start by winning their opening game with Shannon City 45-28. Balanced Scoring was the key factor for Tingley. Larry

Giles scored 11 points, Jerry Jobe accounted for 13, and Melvin Richards scored 17 points.

High for Shannon City and the ball game was Rex Daub With 19 points.

When basketball practice started a few weeks ago the

following boys reported for practice.

Larry Giles*	Center	Senior
Melvin Richards*	Foreward	Junior
Jon O'Neal*	Guard	Junior
Larry England*	Guard	Junior
Jerry Jobe*	Foreward	Sophomore
Roger Palmer	Guard	Sophomore
Charles Nichols	Center	Sophomore
Dean Reynolds	Guard	Sophomore
Ronnie Shields	Foreward	Freshman
Mike Archibold	Guard	Freshman
Marvin Kinne	Forward	Freshman

## Senior News

Happy day! This year has started off with much enthusiasm. Typing, bookkeeping, shop, health, and American history are the senior subjects.

The twelve members of the class are: Larry Giles, Larry Ford, Beverly Clark, Richard Palmer, Sharon Kinney, Robert

Grout, Dale Weeda, Judy Jobe, Brenda Brown, Janet Longcoy, Ronald Grout, and Joyce Richards.

Tuesday, October 29, we had our senior pictures taken.

Our money making project so far has been a dance. The senior Halloween window received second prize.

## Junior Class Play

The Junior Class will present a three act comedy, "One Delirious Night", Friday, November 15 at the theater. The

play is being coached by Russell Boyd. The characters are as follows:

Lilly Clark, Mrs. Arnold's maid-----	Doris Giles
Lefty Daggs, a crook-----	Dick Baker
Mrs. Martha Arnold, a grandmother-----	Rita Miller
Hannah, the cook-----	Ruth Grout
Patricia Arnold, her granddaughter-----	Betty Hill
Sally Winfrey, Pat's chum-----	Norma Sutherland
Dick Delray, Pat's fiance-----	Melvin Richards
Freddie Fenwick, Sally's admirer-----	Glen Tull
Paul Hammond, the butler-----	Larry England
Col. Frank Delray, Dick's grandfather-----	Jon O'Neal
Mavis Jordan, the secretary-----	Mary Kay Barnhill
Dr. Green, the doctor who can cure anything-----	Don Kinne Jr.
O'Brien, a police officer-----	Kenny Clymer

Mrs. Arnold is announcing the engagement of her granddaughter, Pat, to Richard Delray, grandson of Colonel Delray. Pat opposes this arrangement and prefers a young society man around town, Paul Hammond, and on the other hand, Dick prefers his grandfathers secretary, Mavis Jordan. A family heirloom, the Queen Elizabeth necklace, is to be presented to Pat at the engagement dinner.

Pat tries to get Dick not to marry her by having hallucinations and Dick does the same by having fits; but in the meantime mysterious things happen to the necklace and everything is an uproar. There are a few romantic notes throughout the play and a hilarious time is had by all.

Wife to husband; "I scratched the front fender of our car a little dear. If you want to look at it, it's in the back seat."

SOPHOMORE NEWS

The Sophomore class is the smallest class in high school. They have an enrollment of eight students. There are four boys and four girls. Their names are Roger Palmer, Jerry Jobe, Donald McKay, Charles Nichols, Dean Reynolds, Janet Richards, Janetta Saltzman, and Marilyn Minnick.

The subjects that they are taking are health, geometry world history, and English.

The class has had a car wash in which they earned some money for their future class trip. They also got first prize on their Halloween window.

FRESHMAN NEWS

Another year and who is coming up the stairs but the new freshies. They have an enrollment of eleven which are: Ronald Shields, Bob Baker, Jack Jones, Robert Reasoner, Mike Archibald, Marvin Kinne, Linda Kinne, Glee Bear, Marie Miller, Gay Lou Ferguson, and Jeanette Werner.

They participated in the window painting for Halloween in which they won 4th prize. Also they sponsored a bake sale in which they started making money for their senior trip. It was fairly successful for it netted them around \$25.

As subjects they are taking algebra, English, science, and world history.

\*\*\*\*\*

A sensible girl is more sensible than she looks because a sensible girl has more sense than to look sensible.

## Science

The freshmen were gradually taught many principles and terms in science. Mr. Boyd showed a good many of these thorough experiments. Near the first of the year he made some oxygen for us. Among others were a can crumpling because of opposing air pressure; we put a hard boiled egg in a bottle and took it out again; blowed ballons and marshmallows up with a pressure pump; and recently we put stale water under a microscope to see how many bacteria had developed. Now we are continuing to study light and vision.

Also, we have been discussing Sputnik, rockets, and the latest development in the news.

## Sophomore English

In English class they have been studying the main parts of speech and subjective complements. Those receiving the highest grades in English are Janetta Saltzman and Janet Richards.

## Algebra

Mr. Obermeiers freshman algebra class have studied about exponents, powers, negative, positive, and similar terms, and signed numbers.-- During the present time they are learning how to factor and about prime factors.

\*\*\*\*\*

Question: How did the Iowa woman get to Heaven?

Answer: Flu..

\*\*\*\*\*

The one thing that children wear out faster than shoes is their parents.

## World History (9-10)

World history this far has been a study of the people of the past. The Roman Empire, how people lived in the middle ages, and the beginning of modern nations are some of the things they have studied. Also, on Fridays of every week each person of the class gets a current event out of the newspaper. This proves to be interesting.

The four with the highest grades the first six weeks were Janet Richards, Gay Lou Ferguson, Linda Kinne, and Marvin Kinne.

## Senior Boy's Shop

During the first nine weeks our shop class, instructed by Mr. Pistole, we have been learning the art of mechanical drawing by means of sketching our objects on graph paper. Soon we started drawing with instruments on drawing paper. These instruments include a drawing-board, T-square, 2 triangles, scale, and drawing compasses.

Starting the tenth week we have started using hand tools for constructing a tray made out of walnut. First, we make a drawing of the tray to have dimensions for making the tray. This week we have been learning to use a plane and to use this knowledge in jointing the sides of our boards for our tray. Some have started to glue the boards together and planing the surface of the tray.

We will make one or two more projects during the next 12 weeks before we start using the power tools.

\*\*\*\*\*

One Senator to another, leaving the Capitol: "I'd hate to have to go out and make a living under those laws we just passed."

## HEALTH

In health class during the first six weeks we studied the circulatory, respiratory, and digestive systems. To further our study in this we dissected a frog, since the frogs internal organs are similar to that of man. After giving the frog ether we observed the heart beat and studied other organs. The frog's heart beat remained beating for six hours after the incision had been made. During this time the heart beat was stopped by inducing an electric shock; then resumed it's beat after being massaged and warmed with water. We did this several times with success. At this time we are taking up the study of the eye.

## AMERICAN HISTORY

American history has proved to be very interesting. We are studying about the early colonial people, their living conditions, the new political system at this time, the hardships, and the industrial revolution during this period. During the first semester every one is keeping a note book in which are kept charts, maps, and summaries about the events during this time in history.

## GEOMETRY

In geomtry they are studying triangles, and parallel perpendicular lines. Those receiving the highest grades are Betty Hill, Melvin Richards, Larry England, Janetta Saltzman, and Ruth Grout.

\*\*\*\*\*

It takes the wool of 20 sheep to cloth one U.S. soldier and the hide of 20 taxpayers.

## TYPING

In typing we started out the first three weeks by learning the keyboard and taking one minute writings. Larry Giles had the highest score in this project, 43 correct words per minute. Now we are writing business letters and taking five minute writings. The five highest scores are:

Larry Giles	*39 cwpm
Brenda Brown	*36 cwpm
Sharon Kinney	*34 cwpm
Joyce Richards	*33 cwpm
Ronald Grout	*28 cwpm

\* Correct words per minute

## BOOKKEEPING

During the first nine weeks of Mr. Pistole's bookkeeping class the Juniors and merchandising business.

Charts have been kept during this period to show how each student ranks with other members of the class and how many points from the top score each lacks.

## FRESHMAN ENGLISH

In English they have been learning the main parts of speech, diagraming sentences, and learning quotation rules. Also they have been having some spelling words. The highest in the class for the first six weeks were Linda Kinne, and Marvin Kinne.

\*\*\*\*\*

"Daughter," observed the careful father, "that young man who's been walking with you through the park strikes me as exceedingly unpolished." "Yes," she said, "he is a little rough around the hedges."

## JUNIOR HIGH NEWS

### GEOGRAPHY:

In geography the 7th grade are studying the man's work in the industrial world and how a man makes the tools with which he must work.

The 6th grade are studying maps of the world and putting the well known cities, rivers, and mountains on the world map. The maps that are used are drawn free hand.

### ART:

In art we learned to use colored chalk and buttermilk. This is done by painting the paper to be used with buttermilk, then colored chalk is used for creating the desired color effect. This chalk is blended by use of brushes to create a picture resembling an oil painting.

### SCIENCE:

In science, the first six weeks meant the completion of the booklets on the trees found in Iowa. In these booklets we gave a report on the description and uses of the trees. We also put in them the leaves of the trees and free hand drawings of the trees mentioned. The trees written about were the oak, elm, maple, willow, and the poplar. Everyone made the cover for their booklets. We think they are very nice.

### P. T. A.

We had the program for the first P. T. A. We presented three skits, they were, Halloween Surprise, Halloween Vision, and Silver Comet. We had a tap dance by Quita Lininger and a piano solo by Danny Ferguson and the group sang, "It Is No Secret". The history of Ringgold county was given by Violet Scott and Patty Grout.

### MUSIC:

In music we are learning the first three keys in sharps and the first three keys in flats and how to play these notes on the piano and to place them on the proper staff.

### ENGLISH:

We are learning to outline reports for class. Also we have learned the parts of speech and the use of capital letters.

### READ MAGAZINE:

Instead of current events this year we are having the READ MAGAZINE, and we have a test over it at the end of the first six weeks. We will take this test every semester. Those having the highest scores in the first test are:

6th grade  
1 st Quita Lininger  
2 nd Raymond Shields  
3 rd Daren Reasoner

7th Grade  
1 st Gary Duffield  
Jane Kinne  
2 nd Patricia Werner  
3 rd Patty Grout

8th grade  
1 st Lynn Obermeier  
2 nd Nancy Nichols  
3 rd Violet Scott

### SURPRISE PARTY

The pupils of Mrs. Ashenhurst's room had a surprise for her on her birthday Oct. 8. The mothers served refreshments of fruit salad, cup cakes and cool aid.

\*\*\*\*\*

Boss: "Look here, you've entered this credit item under debit."

Joyce R.: "Sorry, sir; you see I'm lefthanded."

## FOURTH AND FIFTH GRADE NEWS

On August 26 the fourth and fifth grade began another busy year with seventeen boys and girls present.

As in all the other rooms we have been hard hit by the flu. As of today we have only two people with a perfect attendance record. They are Merry Ann Nichols and Kenneth Eighme.

We have observed four birthdays since school started. Kenneth Eighme, Dianne Richards Jean Kinne, and Connie Reynolds celebrated by treating the room to candy bars, cup-cakes, or something else along that line.

Visitors this year have been Mrs. Lloyd England, Mrs. Franklin Nichols, Mrs. Carl Riggs, Colleen Reynolds, Rita Ibbotson, and Jimmy Mike LeMar.

During the first part of the school year our room en-

joyed a picnic. It was held At Miss. Eighme's home. We spent the evening playing games after which we enjoyed a wiener roast.

On Monday October 28th we painted our windows for Halloween. The fourth grade received first prize and the fifth grade received second.

On Tuesday of that week we had the kindergarten in our room because Mrs. Christianson was ill with the flu. Then on Wednesday Vienna Richards was our teacher because Miss Eighme was substituting in the Primary and First grades. Twilla Linger was our teacher on Friday as Vienna had contacted the flu.

This week things are slightly more normal as we have had only one person absent this week.

## SECOND AND THIRD GRADE NEWS

Both of the reading classes are studying Animal Units. The children are interested in the Unit and Therefore dramatizations have been made. As a part of the reading and Phonics, they are studying the Consonant Blends. The second graders are using cl, pl, bl, st, and gl. The third graders are working with syllables and the rules of dividing words into syllables.

The second graders are just beginning correct usage.

They decide by the number of people talked about, which choice is correct. Third graders are using the helping words to determine the correct words. In arithmetic they are counting money, and learning to tell time.

The second graders have been reviewing the addition and subtractions numbers up to 7.

Gary Petershon is the only one in the room who has neither been absent or tardy this year.

## PRIMARY AND FIRST GRADE NEWS

I think probably the Primary and First grades are about the first group of school children to be able to say they have had five different teachers in only two six weeks of school. They have had Mrs. Pritchard, Mrs. Todd, Mrs. Christensen, their present teacher, Mrs. Bloomstrand, and Miss Eighme. They had the latter two teachers due to the

illness of Mrs. Christensen for a week. If they all survive their many changes they should grow up to be very strong individuals. They should get to be on the T. V. show "I've Got a Secret".

The things of interest which have happened are our various units we have studied, such as farms, toys, and pets.

## BASKETBALL

The basketball season has started again  
With the teams well represented.  
The players play with all their might  
Till the trophy has been presented.

The teammates pass, shoot, and score  
Until the game is won  
By either the home team or visiting team  
Then their job is done.

Nancy Nichols

## TEEN-AGER

She uses my nail polish, wears my hose,  
Swipes my make-up to powder her nose;  
Borrows my lipstick, the sweater I knitted  
(A trifle too large, but she said it just fitted!)  
She reads all my magazines, samples my books.  
Commandeers my compact to check on her looks.  
Talks me out of that hat that I'd worn only twice.  
She takes all that I give her---except my advice!

# GOSSIP

I hear that Janet Pearle had a grand and hilarious time at the 169 Club Saturday night.

I wonder whose red Buick it is that is seen going South on Highway 169 about two miles? Do you know Janetta???

Beverly, I hear you have a visitor from Des Moines on week ends. Could his initials be L. H. ???

Tell us Janet R. -- What do you see in all these soda jerks? Maybe this one will last longer than the others. You know they say the third time is charm!!!!

Say Marilyn, is it daylight yet at 4 o'clock in the morning?

Rita, who is this guy Eddie that I've been hearing you talk about???

Oh! Jerry, whats this I hear about a certain Ellston girl not being able to go on dates until she's 14. Wait patiently Jerry!!!

Charles Dean wishes people would refrain from shooting rabbits???

Oh! Norma, where did you get that black eye? What does the other person look like?????

I see Betty H. has a bracelet with G L E N written on it. I wonder what that spells????

Oh! Glee, how do you like to drive a '50 maroon-- Chevie?

I wonder what Melvin has been doing in the office. Could he be flirting with Brenda????

Say, Joyce who did you have down to your house for ice cream and cake? Would you know Larry G.?????

Who was it that ran out of gas Sunday night and had to walk to Frank Richard's to borrow some gas? Could you tell us Janet???

I hear Mick Ford's Grandm a is a Junior in Afton High School What about it Mick???

Mary Kay, who is the person you've been having all the trouble with at play practice? Do you know anything about it Kenny??

Whitey, you'd better wear a suit of armor next time you take a certain girl out!!!

It seems as though Mike A. and Gay Lou F. have been having some friendly little chats in study hall.

Who is the curly headed kid in the Freshman class that all the girls are after? Do you know Jack???

Dean, why have you been going out to see Charles N. Maybe because of a third party? Is that right Dean???

Ken C. wants everyone to help him prevent forest fires. The "Pine" you save might be his!!!

Sharon, why don't you ride the school bus on Wednesday evenings???

Richard, please make up your mind. One week you are going to Arispe and the next Week you are going through Arispe. Which is it going to be???

Doris did you have a visitor Saturday night? Or should I ask Tub what he knows about it????

Say Melvin, what's this I hear about you collecting 15 kisses from a certain girl. Is that right Glee???

# Jokes

A sign on a country hotel read: "Open to Take Tourists." Under the printed words someone had written: "AND HOW!"

\*\*\*\*\*

A door-to-door salesman to housewife; "You should have seen what I saw at your neighbor's. May I step in and tell you about it?"

\*\*\*\*\*

Obie: "How many fingers have you?"

Ronnie: "Ten."

Obie: "Well, if four were missing, what would you have then?"

Ronnie: "No music lessons."

\*\*\*\*\*

Glee: "Somebody picked my pockets."

Janet: "What did he get?"

Glee: "Practice."

\*\*\*\*\*

A tourist spotted an Indian sending up smoke signals in the desert. He had a fire extinguisher strapped to his side. "What's the idea of the fire extinguisher?" asked the tourist.

The rugged redskin replied, "If me misspellum word, me erasum."

\*\*\*\*\*

Richard was brought before the judge on a speeding charge. He was requested to take the oath, "Do you solemnly swear to tell the truth, the whole truth, and nothing but the truth?"

Reluctantly, he agreed.

"Now, what have you to say for yourself?" asked the judge.

"Well, judge," Richard answered, "with all them limitations on me--I haven't a thing to say."

\*\*\*\*\*

A judge once climbed into his dentist's chair, fixed a beady eye on his tormentor, and intoned, "Do you dolefully swear to pull the tooth, the whole tooth and nothing but the tooth?"

\*\*\*\*\*

Melvin (1965): "I'm anxious to make this shot. That's my mother-in-law up on the clubhouse porch."

Jerry: "Don't be silly, you can't hit her from here. It's over 200 yards."

\*\*\*\*\*

Mary had been promoted to the third grade.

Meeting the second grade teacher, whom she had liked very much, she said, "Gee, Miss Kate, I wish you were smart enough to teach medthis year, too."
